Important Notes:

1. Color matches have been tested and are extremely close, but cannot be guaranteed based on a variety of variables. For an exact steel color match, email info@rollupdoorsdirect.com for a steel color sample.
2. All formulas are based on **one gallon of BEHR Oil-Base Semi-Gloss** paint. Selecting a different paint brand or quantity could alter matching.
3. Maroon and Cedar Red exact matches could not be achieved, so please use caution in matching these colors.
